S15. Just to make sure we have a representative sample of people from all across [S4 STATE] please enter your zip code. For the software to read this form, please mark an "X" as the first digit before your zip code, such as: X 9 1 3 0 1 which will ensure the data is input in a uniform manner

[ ]   [ ]   [ ]   [ ]   [ ]   [ ]

Programmer: If respondent does not enter "X" (upper or lower is fine) as first character, return this prompt:

It looks like you did not enter your zip code correctly, please read the instructions carefully below.

For the software to read this form, please mark an "X" as the first digit before your zip code, such as: X 9 1 3 0 1 which will ensure the data is input in a uniform manner

[   ]   [   ]   [   ]   [   ]   [   ]   [   ]

Note: The above item, S15 serves two purposes, first it provides us with respondent zip code; and second, it serves as a soft attention check. For respondents who are not reading carefully, it gives them a reminder to read and pay attention – similar to filing out online forms – however it does not eliminate any respondents and it does not send the message that we are reading and monitoring their opinions

Okay – great! Let's move on to the main survey

131.   Congress should pass a comprehensive stimulus bill with over 2 trillion dollars in additional funding for unemployment benefits, stimulus payments, small business loans, and support for state and local government.

132......[SPLIT A] As long as the coronavirus is a threat, we need a national mandate to wear masks in public.

133.   [SPLIT B] We should end the policy of separating immigrant children from their parents at the border.

134.   [SPLIT A] We should establish a path to citizenship for undocumented immigrants who come forward, are up to date on their taxes, and pass a background check.

135.   [SPLIT B] We should reward undocumented immigrants who have risked their lives as essential workers during the pandemic with the opportunity to apply for citizenship in America.

136.   [SPLIT A] We need police reform to stop the killing and abuse of African Americans. We need to ban chokeholds and strangleholds, and greatly reduce police shooting at suspects.

137.   [SPLIT B] We should get rid of the electoral college and have a basic popular vote to elect the President of the United States. Rather than using a state-by-state electoral vote, who ever gets the most total votes nationwide should win.

138.   [SPLIT A] Congress and the President should support a bold national climate policy agenda that advances the goals of economic, racial, climate, and environmental justice.

139.   [SPLIT B] Abortion should remain a legal option in the United States.

140.   [SPLIT A] Washington D.C. should be a full state and have 2 U.S. Senators and Representative in the U.S. Congress

There are different ways of voting, and we would like to know how you would vote with two different ways of voting.

195.   [
   Split A.1: RCV-Short-4] One way of voting uses a ranked vote, in which you rank candidates to indicate your first choice, your second choice, and so on.

For example, if Joe Biden decides not to run for re-election and the 2024 presidential election was today which candidate would you choose? Indicate your first choice in the first column, your second choice in the second column, and so on.   [Randomize order of candidates]

Candidate	1st Choice	2nd Choice	3rd Choice
Donald Trump, Jr., Republican

[Split A.2: RCV-Short-10] One way of voting uses a ranked vote, in which you rank candidates to indicate your first choice, your second choice, and so on.

For example, if Joe Biden decides not to run for re-election and the 2024 presidential election was today which candidate would you choose? Indicate your first choice in the first column, your second choice in the second column, and so no.   [Randomize order of candidates]

Alexandria Ocasio-Cortez, Democratic representative from New York				
Andrew Cuomo, Democratic governor of New York				
Stacey Abrams, former Democratic leader in the Georgia House of Representatives				

[Split B.1: RCV-Long-4] One way of voting uses a ranked vote, in which you rank candidates to indicate your first choice, your second choice, and so on. If a candidate receives a majority of first choice votes then that person wins. If no candidate has a majority of votes then the last place candidate is eliminated and that candidate's first choice votes are transferred to the next choice. So, if your preferred candidate is eliminated then your vote is transferred to your next choice. This process of eliminating candidates and transferring votes continues until a candidate has a majority of votes and that person wins the election.

Organizations often release report cards on politicians' voting record. These report cards contain a scoring of how often the politician has voted in line with the organization's preferred policies. A high rating for a politician from an organization means that the politician has voted in line with the organization's interests or had supported its interests in the past. The following candidates are running for state assembly:

Candidate	Jake Connor	Tanner Wyatt
Party	Republican	Republican
Age	43	45
Education	College graduate	College graduate

Please read the following statements about different approaches to improving the status and well-being of lesbian, gay, bisexual, and transgender (LGBT) people. Then rank how the LGBT movement should prioritize them using a total of 10 points, where lower values indicate lower priority and higher values indicate higher priority. You may give all 10 points to one approach or you may split them across approaches. You must use all 10 points to move to the next page. [Sliding scale that adds up to 10]

When it comes to improving the status and well-being of LGBT people, the LGBT movement should prioritize:

336..[Q] Radical social change that dismantles institutions such as marriage and rejects binary gender and sex systems, such as no longer assigning sex on birth certificates. [Assign 0 – 10 points]

337..[Q] Civil rights protections, such as employment and housing policies that protect LGBT people from discrimination as a group. [Assign 0 – 10 points]

338..[Q] Civil liberties protections, such as the right to privacy from government interference in one's personal life when LGBT people serve in the military or need to change their gender on a government issued document. [Assign 0 – 10 points]

ABOVE THREE ITEMS MUST SUM TO 10 TOTAL POINTS

339..If you had to choose one approach to improving the status and well-being of LGBT people, which is most important to you?

> Radical social change that dismantles institutions such as marriage and rejects binary gender and sex systems, such as no longer assigning sex on birth certificates. 1
> Civil rights protections, such as employment and housing policies that protect LGBT people from discrimination as a group　　　　　2
> Civil liberties protections, such as the right to privacy from government interference in one's personal life when LGBT people serve in the military or need to change their gender on a government issued document 3

377.   [W] We are interested in your reactions to some things that happen in everyday life. We will first describe the situation to you and then ask you a few questions.

Mrs. Lewis, a White woman with young children, posts advertisements for a nanny on community bulletin boards. She receives many inquiries and decides to interview all applicants over the phone. Mrs. Lewis is most impressed with a woman named Laurette, who has relevant experience, is an excellent cook, and comes enthusiastically recommended. Mrs. Lewis invites Laurette over for what she expects will be the final step of the hiring process. When Laurette arrives, Mrs. Lewis is surprised to see that Laurette is Black. After Laurette's visit, which goes very well, Mrs. Lewis thanks her for her time but says that she will not be offered the job. When Laurette asks why, Mrs. Lewis says that she doesn't think that her children would feel comfortable around her. Laurette is upset about Mrs. Lewis' actions. 379.   [W] Milford is a mid-sized city in the Northeast. The main bus depot for the city is located in the Whittier section of Milford, a primarily Black neighborhood. Whittier community leaders argue that the concentration of buses produces serious heath risks for residents; they point to the high asthma rates in Whittier as evidence of the bus depot's harmful effects. The Milford Department of Transportation officials, who are mostly White, state that Whittier is the best location for the depot because it is centrally located and many Whittier residents take the bus. Furthermore, it would be expensive to relocate the bus depot to a new location. Whittier community leaders are very upset by the Department's inaction. Now we have some questions about different groups in our society.
We're going to show you a seven-point scale on which the characteristics of the people in a group can be rated. In the first statement a score of '1' means that you think almost all of the people in that group tend to be 'peaceful.' A score of '7' means that you think most people in the group are 'violent.'
A score of '4' means that you think that most people in the group are not closer to one end or the other, and of course, you may choose any number in between. [Randomize]

384.	Some people say the Black Lives Matter protests in the Summer of 2020 were mainly a protest against unfair treatment of Black people. Others say they are mainly a way of vandalism and looting. Which of these statements seems more correct to you?

In the first statement a score of '1' means that you think that the Black Lives Matter protests were only about protesting against unfair treatment of Black people. A score of '7' means that you think these protests were only about vandalism and looting. A score of '4' means that you think that the Black Lives Matter protests were about both of these aspects, equally and of course, you may choose any number in between.

799.   [SPLIT A] When we think of people in racial or ethnic terms, we usually use the labels White, Black Latino, Asian,American Indian, Native Hawaiian, Pacific Islander or Middle Eastern. Sometimes one label is sufficient and sometimes we use more than one racial or ethnic label. Imagine if we used a 10 point system to define our race and ethnicity, where the 10 points are assigned to whichever racial or ethnic groups we think accurately describes a person.

For example, if you think of someone as half-White and half-Black, you might allocate 5 points to White and 5 points to Black. Or if you think of someone as mostly White but with some Black heritage, you might allocate 7 or 8 points to White and 2 or 3 points to Black.

Now think of yourself in racial and ethnic terms. How would you describe your race and ethnicity using this 10-point system? Assign a number from 0 to 10 for each label below so the total is 10 points. [Calculate and display the total, Must equal to 10 before moving forward]

White, not Hispanic
Black or African American
