# Contents

**1 Introduction** **1**

1.1 Graphs and Hypergraphs . . . . . 1

1.1.1 Graphs . . . . . 1

1.1.2 Hypergraphs . . . . . 2

1.2 Extremal Combinatorics and an Overview of Results . . . . . 2

1.2.1 Chromatic Number . . . . . 2

1.2.2 Edge Cardinality . . . . . 3

1.2.3 Overview of Results . . . . . 4

1.2.4 Oriented $k$-Graphs . . . . . 5

1.3 Glossary of Technical Terms . . . . . 6

**2 Type Graphs** **7**

2.1 Preliminaries and Basic Definitions . . . . . 8

2.2 The Block Algorithm . . . . . 12

2.3 The Lower Bound – Noncolorability . . . . . 17

2.4 The Upper Bound – Constructing Colorings . . . . . 19

2.4.1 Embedding Type-Graphs . . . . . 20

2.4.2 Coloring the Auxiliary Graphs $G_b(n)$ . . . . . 22

2.5 Reducible Types . . . . . 32

2.5.1 Concluding Remarks . . . . . 35

**3 Property O** **37**

3.1 Property B . . . . . 37

3.2 Definitions and Overview . . . . . 39

3.3 Proof of Theorem 3.2 . . . . . 41

3.4 Proof of Theorem 3.4 . . . . . 43

3.4.1 Phase 1: reveal consistent edges . . . . . 44

3.4.2 Phase 2: reveal inconsistent edges . . . . . 45

3.5 A Construction, Small Values of $n$, and Problems . . . . . 47

3.5.1 Concluding Remarks . . . . . 50

**Bibliography** **51**
