

List of Figures

Figure 1. Bacterial counts from single strain bioreactors	12
Figure 2. Blood agar plates with bacterial populations	14
Figure 3. Bacterial counts from coupled strain bioreactor	14
Figure 4. Comparison of bacterial counts of biofilm and planktonic populations grown alone and coupled	15
Figure 5. Comparison of bacterial counts of 19F GA13499cTrim and D39pTet biofilm populations grown alone and coupled	16
